The world is changing, and education must change with it. The **G**lobal **I**nnovation **F**ield **T**rip is the **GIFT** that will enable you to do that. Join us for the next on-line, 24-hour, multi-country collaboration, celebrating young innovators and those who educate, inspire and sponsor innovation.

#### Why we should all get involved:

- ✓ To celebrate and promote stories of innovation.
- ✓ Students can and will create world-changing solutions once they understand the steps to innovating.
- ✓ K12 students have no predefined career path. We have the power to help influence their path.
- ✓ It is our responsibility to empower every child to take over where we leave off. Let's do our best to inspire their success!
- ✓ Showcase your young innovators at the next Global Innovation Field Trip! Visit: [www.globalinnovationfieldtrip.org](http://www.globalinnovationfieldtrip.org)
